

Same-Day Delivery Form

This form is for all patients receiving devices on the day of their initial evaluation, or, patients receiving devices without authorization.

Some insurances require authorization for the devices that we supply to you, which determines whether they will cover the device. Typically, we prefer approval of authorization before we deliver a device to you so that we can inform you of coverage; However, we understand that there are circumstances in which you need your device today. If the device you have been prescribed is in stock, we are willing to provide it to you during your evaluation. We will run your benefits and come up with an **ESTIMATE**, which will determine what we will collect from you today.

After your appointment, we will contact your insurance company to see if authorization is needed. If so, we are required to start authorization the same day that you receive your device, however it can take close to a month to receive a decision depending on your insurance company. It is possible that authorization will be denied, meaning that your insurance has decided not to cover the device you have received, and you will be financially responsible for the full cost of the item. We will **NOT** be accepting returns of devices if insurance does not cover your device.

Based on our experience we have determined that the following insurance carriers often require authorization, but this is by no means meant to be a comprehensive list: Medicaid, Amerigroup, Peach State, Wellcare, and Alliant. Medicare and Medicare advantage/supplement plans **typically** do not require authorization. Private insurances are policy specific.

Based on the above information, please initial **one** of the following options and sign/date below:

___ I would like to receive my device today (if available). I understand that if my insurance company denies authorization, that I am financially responsible for the entire cost of the device. I understand that I cannot return the device, once I take the device home it cannot be returned to Alliance.

___ I would like to wait to see if authorization is required for my device and will schedule an appointment to receive it once authorization is approved. I understand once I take the device home, it cannot be returned to Alliance.
